Pricing Available for Long Distance, Day Excursions from CBC - Contact Zach for Details	

*All prices are in USD

Base Lab Fee - This fee includes roundtrip transfer from Dangriga to Carrie Bow Cay on the regular Wednesday afternoon boat trip. The cost of the night stay at Pelican Beach Resort on the Wednesday that you will be departing will also be included at the same rate. All meals on the island and the use of all laboratory facilities are included. Sodas and beer are not included.

Every research project will require one research permit per year, which will include any export permits under that project title.

Researchers who will be using the CBC SCUBA facilities will be charged for each day that they are using SCUBA tanks.

Domestic Airfare includes the roundtrip Tropic Airlines flight between Belize City and Dangriga.

Large groups that are traveling with excessive amounts of luggage may want to consider taking a van between Belize City and Dangriga. The van will be a large, economy van and will have plenty of space for passengers and luggage. It will pick up and drop off the group at the Belize City International Airport.

Boat transfer between Dangriga and Carrie Bow Cay, on the regularly scheduled, Wednesday afternoon boat, is included in the base lab fees. If researchers require a boat transfer outside of the regularly scheduled boat trip, it will cost \$275.00 for the first 4 people and \$70.00 for each additional person for a one way trip.
